Environments Plants Grow In

Some plants can live in almost any condition, where as others can only live in one or two environments. Even Antarctica has a few types of living plants. There are lots of different words to describe the environments plants grow in and the places within those environments that plants thrive.

Environments Plants

Grow In: *tropical *desert *mountain *coast *prairie *forest *jungle

Plants and Where Plants Grow— Environments Plants Grow In General Places in an Environment Plants Grow: *meadow *field *pasture *garden *park *yard *yard *valley
