All Kinds of Rocks

LEVEL B-11: Rocks | Book 2

written by Elfrieda H. Hiebert and Wendy Svec

A park is a good spot to see rocks.

Some rocks are brown, gray, or black.

There are pink rocks, too.

There are even red rocks.

Rocks can be of many colors.

Rocks are not all the same.
Some rocks are small.
You can hold them in your hand.

Some big rocks can be fun to climb.

But some rocks are big.

No one can pick them up!
