What Is a Plant?

LEVEL B-3: Plants | Book 1

written by Elfrieda H. Hiebert

This boy and his mom see
big and little plants.

Plants make food from the sun.
Can animals do that? No.
But a flower can.
A flower is a plant.

Many animals need plants to stay alive.

Plants are alive.
Some plants are big.
And some plants are little.

Rocks do not need food
because they are not alive.

Rocks can be little.
They can be big too.
Are they plants?
No! Rocks are not alive.
