# Tree Needles

**LEVEL C-3: Trees | Book 2**

written by Elfrieda H. Hiebert & Alia Pugh

Old needles are dark green.  
Evergreens have red needles too.  
Red means the needle will drop off soon.

Evergreen trees have cones and needles.

When a needle turns red,  
it will fall off soon.

Many evergreens do not have  
leaves and flowers.

They have cones and needles.

Needles that are light green  
are new needles.

Some needles fall off the trees.  
New needles grow.  
You can tell a new needle by its color.  
New needles are light green.
