# Mud Homes

**LEVEL C-1: Early Homes | Book 3**

written by Elfrieda H. Hiebert

People could stay in one place for a long time, after they planted crops.

Mud houses are called adobes.  
The word adobe means mud bricks.  
An adobe house is made of mud bricks.  
Mud keeps adobes cool in the sun.

Adobes are made with mud bricks.

Early people began to plant crops for food.

Now they could stay in one place all year.

People could make homes to last a long time.

People make homes from the things around them.  
Some places have lots of sun.  
But they do not have a lot of trees.  
These people made homes out of mud.

Mud was easy to find to make houses in hot places.
