Wood Homes

LEVEL C-1: Early Homes | Book 4

written by Elfrieda H. Hiebert

People made log homes long ago.

Many homes are still made from wood.
Some wood homes are even log cabins.
But wood homes come in many styles.
They come in lots of sizes too.

This log cabin is one of the largest in the world.

Some places have lots of rain and snow.

Trees grow in these places.

Early people made houses from trees.

They would cut them into logs and stack them.

Some early homes had flat boards.

Some people cut the logs into flat boards.
They used sharp stones to cut the logs.
These homes looked more like houses
you see today.
