# How Big Is the Sun?

**TURQUOISE STEP SET A-11: The Sun | Book 2**

written by Elfrieda H. Hiebert & Wendy Svec

The sun is a very big star.  
And it is much bigger than  
Earth!

The sun is far, far away.

The sun is way up in the sky.  
So, it may seem small.

The sun is a star, not a  
planet like our Earth.

You may think our Earth is bigger than the sun.

But this is a trick!
