# How Hot Is the Sun?

**TURQUOISE STEP SET A-11: The Sun | Book 3**

written by Elfrieda H. Hiebert & Wendy Svec

A cup of tea can be very hot.

What is as hot as the sun on Earth?

There is not one thing as hot as the sun!

The sun is a lot hotter than hot tea.

What do you do on a hot day?

Lava is the hottest thing on Earth.

The sun is even hotter than lava.
