Where Are Rocks?

SET B-11: Rocks | Book 1

written by Elfrieda H. Hiebert and Wendy Svec

Rocks make up the Earth's crust, or shell.

Other rocks are easy to see.

But only if you are at the bottom
of the sea!

Down, down, you must
go to find this rock.

The Earth has lots of rocks!
Some rocks are not hard to find.
They are the rocks that make up
hills and mountains.

Rocks are under the places we live.

But some rocks are hard to see.

Rocks are under our homes and schools.

You have to dig and dig to get to this rock.
