# Ants All Around

**SET B-6: Ants, Ants, Ants | Book 3**

written by Elfrieda H. Hiebert & Alia Pugh

Ants do not like it too hot.

But ants cannot live in  
ANT-arctica.

Why? It is much too cold.

Do not let the name fool you!

Antarctica is a very cold place.

Ants can live in many places.  
They can live where it is warm.

Ants dig best in dry dirt.

Ants can live where it is cool.  
They keep warm in nests.
