Evergreens

PINK STEP SET C-3: Trees | Book 1

written by Elfrieda H. Hiebert & Alia Pugh

Evergreen trees stay green all year long.

Cones of evergreens can be called pine cones.

Yes, pine trees have cones.

So do other evergreens like spruce trees.

Fir trees have cones too.

Fir trees are evergreens
that have cones.

Some trees stay green all year round.
They do not drop leaves like many
other trees.
Trees that stay green all year are
called evergreens.

Cones come in many sizes and shapes.

Evergreens have seeds.
The seeds are inside cones.
Cones come in many sizes and shapes.
