Snake Style

PINK STEP SET C-6: Snakes | Book 2

written by Elfrieda H. Hiebert & Wendy Svec

Some snakes are thin like this one, while others are thick.

The skin of snakes is covered with scales.

The scales of snakes can have different shapes.

Some snakes have scales with dots and spots.

Others have scales with stripes.

Snakes come in many sizes.
Some snakes are as short as a pen.
Other snakes are very long.
One snake grows as long as a mini-van.

The special scales of the sunbeam snake shine when they are in the light.

Snakes come in all colors.

The sunbeam snake can look like it has all the colors of the rainbow.

But that only happens when it is in the sunlight.

At other times, it is gray and brown.
