A snail can smell leaves to eat. Here is one eating the leaves on a plant.

© 2008 by Steven Milleham. Some rights reserved (<http://creativecommons.org/licenses/by-nc/2.0>).

A snail can smell a safe place to hide. Here it is hiding.

# Beaks

© 2007 by Ben Bowden. Some rights reserved (<http://creativecommons.org/licenses/by-nc-nd/2.0/>).

Many birds cannot smell very well.  
Birds use their eyes to find food to eat.

© 2006 by Malingering in enFlickr. Some rights reserved (<http://creativecommons.org/licenses/by-nc-nd/2.0/>).

© 2011 by skipprick in enFlickr. Some rights reserved (<http://creativecommons.org/licenses/by-nd/2.0/>).

Birds have beaks, not noses. Some birds have huge beaks. Some birds have little beaks.

© 2011 by captain orange in enFlickr. Some rights reserved (<http://creativecommons.org/licenses/by-nd/2.0/>).

This bird has a huge beak. But a huge beak does not mean that a bird can smell well.

# Elephant's Trunk

© 2007 by Chris Price. Some rights reserved (<http://creativecommons.org/licenses/by-nc-nd/2.0/>).

© 2010 by Nathan Gibbs. Some rights reserved (<http://creativecommons.org/licenses/by-nc-sa/2.0/>).

v.1.0 © 2011 TextProject, Inc. Some rights reserved (<http://creativecommons.org/licenses/by-nc-nd/3.0/us/>).

Look at the elephant as it says hi  
with its trunk. Can you say hi with  
your nose?

© 2009 by Neil Page. Some rights reserved (<http://creativecommons.org/licenses/by-nc-nd/2.0/deed.en>)

An elephant's nose is called a trunk. It can smell things just like you can smell things with your nose.

© 2010 by Kevin Haber. Some rights reserved (<http://creativecommons.org/licenses/by-nc-nd/2.0/>).

Look at the elephant grab leaves to eat with its trunk. Can you eat with your nose?

## Which Is It?

Elephants have feet just like you  
and me. They have four feet. I only  
have two.

See elephants have nails on their  
feet too! They only have two or three.  
I have five.

# Snail's Foot

© 2009 by Jessica Petersen. Some rights reserved (<http://creativecommons.org/licenses/by-nc/2.0/>).

I find my snail by looking for its slime.  
There is my snail!

© 2005 by Steve Winton. Some rights reserved (<http://creativecommons.org/licenses/by/2.0/>).

Birds have many kinds of feet. Ducks have feet that help them swim.

Eagles have feet that help them grab onto parts of trees. They can sit at the top of the tree and not fall down.

## Which Is It?

v.1.0 © 2011 TextProject, Inc. Some rights reserved (<http://creativecommons.org/licenses/by-nc-nd/3.0/us/>).

© 2006 by JEN CORREGAN. Some rights reserved (<http://creativecommons.org/licenses/by-nd/2.0/>).

An eagle flies high in the sky. It is looking for food to eat. Can an eagle smell a fish as it flies high in the sky?

© 2011 by kbeard5 in enFlickr. Some rights reserved (<http://creativecommons.org/licenses/by-nc/2.0/>).

No, an eagle cannot smell a fish from high in the sky.

© 2007 by hans tijds. Some rights reserved (<http://creativecommons.org/licenses/by-nc-sa/2.0/>).

The snail moves its head slowly. The eyes on the top of stalks lets a snail see all around it.

## Eyes on Top

© 2008 by (Laughing Dog Photography) in enFlickr. Some rights reserved (<http://creativecommons.org/licenses/by-nc-sa/2.0/>).

© 2011 by LH6 Creative Photography in en:fr:fr. Some rights reserved (<http://creativecommons.org/licenses/by-nc-nd/2.0/>).

Some snails have two eyes. Other snails have more than two eyes. But all snails have their eyes on top of stalks.

© 2007 by Property#1. Some rights reserved (<http://creativecommons.org/licenses/by-nc-nd/2.0/>).

The stalks with eyes can bend. They can move up or down. They can move from side to side.

# Elephant Eyes

© 2010 by Matthew C. Wright. Some rights reserved (<http://creativecommons.org/licenses/by-nc-sa/2.0/>).

You can see better than an elephant.  
But you cannot hear things as well as  
an elephant. You cannot smell things as  
well as an elephant.

© 2007 by Jason Armstrong. Some rights reserved (<http://creativecommons.org/licenses/by-nc-nd/2.0/>).
