

Snow Rabbits

In the summer there are lots of brown rabbits. They hop about in the bushes looking for food to eat.

Brown rabbits can hide in and around the bushes. If a rabbit stays still, it is very hard to see them hiding in the brown bushes.

In the winter, the rabbits lose their brown fur and grow white fur. White rabbits are hard to see in a snowy field.

Staying Warm

In winter, some animals find a warm place. They sleep there till spring when it is warm. Here is a bear sleeping in its den.

Other animals grow thick fur to stay warm. Here is a sheep with its thick winter coat.

But some animals need help in staying warm. I give my dog a coat when we go out to play!

Geese at the Pond

In spring, geese come to the pond. There are many green plants by the pond. The geese like to eat the green plants.

The geese stay at the pond all summer. The young geese learn to swim. The young geese also learn to fly.

When winter comes, the geese are gone from the pond. They fly to places that are not cold. There they will have lots of green plants to eat all winter long.
