When winter comes, the geese are gone from the pond. They fly to places that are not cold. There they will have lots of green plants to eat all winter long.

In spring, geese come to the pond.  
There are many green plants by the  
pond. The geese like to eat the  
green plants.

The geese stay at the pond all summer.  
The young geese learn to swim. The  
young geese also learn to fly.
