Human body, senses, & health (4-5)
Multiple-meaning-word map

Laura was enjoying school. She knew all the pupils now, and she and Ida, Mary Power and Minnie, were becoming fast friends. (Laura was enjoying school)

With your brain thinking there is too much light, your pupils get smaller. (Laser)

The book contained lists of words used every day by American boys and girls. It also contained pictures and stories that helped pupils remember the words. (The spelling bee)

The black circles in the middle of the eyes (n)

Foxes see well at night. The pupils of their eyes, like cats’ eyes, close to narrow slits when light is bright. But in darkness, the pupils open wide and let in all available light. (A seldom-seen neighbor)
