

Garbage Truck

Look at the big green garbage truck! It comes down our street every week. At our house, we put paper, cans, and bottles in the blue bin. That is for recycling. Only real trash goes in the black bin.

The driver is like a skilled pilot of a jet plane. The truck stops in front of our bin. A robot arm reaches out to grab it. Up, up goes the bin! The arm lifts it high and tips the trash into the truck. Inside, a moving part squishes the garbage to make more room. Crunch! Squish!
